

LACCD Los Angeles Community College District
Hosts the

California Higher Education Sustainability Conference 2010

Formerly the UC/CSU/CCC Sustainability Conference

June 20-23, 2010

@ Los Angeles Trade-Technical College

Join us for the 9th Annual 2010 Higher Education Sustainability Conference and collaborate with project and energy managers, campus architects, operations and maintenance staff, administrators, student leaders, and faculty from CCC, CSU and UC campuses around the state.

- Learn proven solutions from your peers
- Discuss best practices designed for California campuses
- Meet student leaders creating change
- Meet green business leaders at the exhibitor show
- Meet the decision-makers from the three higher education systems

Learn about innovations in campus operations, planning, design, curriculum, and research through the peer-to-peer network that is being built within the California Community College (CCC), California State University (CSU) and University of California (UC) systems.

Explore the ways in which we can implement social, environmental, and economic sustainability on our campuses statewide; prepare this generation for green collar jobs, and bring sustainability to campus practices, policies and contemporary culture.
